Due to new state accounting system, state fiscal accounting for SFY07 may not reflect correct expenditures. Efforts are underway to resolve discrepancies.

FIELD LEVEL NOTES

Section Number: Main

Field Name: DirectHCBudgeted Row Name: Direct Health Care Services

Column Name: Budgeted

Year: 2006 Field Note:

The State's new administration usually starts out the year with a smaller budget than they allocate later in the year. The original budget allocated to Title V of state funds is much less than the program needs to maintain services. However, during the midyear review, the administration reconsiders program expenses and usually allocates more state funding for the last half of the year.

It has become necessary to spend most of our grant on direct services as more and more people who do not qualify for either Medicaid or SCHIP need safety net services.

This has been discussed with Peter Van Dyck at MCHB.

Numbers on this form are very rough. Before 2008, New Mexico has not been able to derive unduplicated numbers of pregnant women and children served by Title V. As of 2008, New Mexico has implemented the BEHR (Billing and Electronic Health Record) system. The Families FIRST and Children's Medical Services Programs are implementing a new case management software system "ChallengerSoft." WIC data is being analysed. Vital Records and Health Statistics converted to an electronic birth certificate system. All of these in combination should improve the precision in reporting the numbers for this form in the future.

FIELD LEVEL NOTES

1. Section Number: Main

Field Name: PregWomen_TS Row Name: Pregnant Women Column Name: Title V Total Served

Year: 2009 Field Note:

Pregnant women: The Title V program is the organizational home to NM WIC. The total pregnant women enrolled in WIC was 18,821.

Families FIRST, The High Risk Prenatal Care fund, and providers contracted with Title V funds served a total of 4568 pregnant women.

Unduplicated counts are not yet available.

2. Section Number: Main

Field Name: PregWomen_XIX Row Name: Pregnant Women Column Name: Title XIX %

Year: 2009 Field Note:

S-CHIP does not cover prenatal care in NM

3. Section Number: Main

Field Name: PregWomen_None Row Name: Pregnant Women Column Name: None %

Year: 2009

An estimate 13% of women had no form of insurance; this includes, about 20% of women receiving WIC, all of the women served by the High Risk Prenatal Fund, the local health offices and those served under contract to the M&I Project located at UNM.

4. Section Number: Main

Field Name: Children_0_1_TS Row Name: Infants <1 year of age Column Name: Title V Total Served

Year: 2009 Field Note:

Virtually all babies born in New Mexico are served by Title V through newborn genetic and hearing screening programs. This number is derived from the 2006 number of births (29,918) and the percentage of newborns screened each year (99.4%)

5. Section Number: Main

Field Name: Children_1_22_TS
Row Name: Children 1 to 22 years of age
Column Name: Title V Total Served

Year: 2009 Field Note:

Please see Form-Level note.

Section Number: Main Field Name: CSHCN_TS

Row Name: Children with Special Health Care Needs

Column Name: Title V Total Served

Year: 2009 Field Note:

2005 CSHCN included 4648 served by the Children's Medical Services Program (CMS) and 621 are children in the early intervention program and receive care coordination by the CMS social workers. The count does not include all children who received specialty services.

 Section Number: Main Field Name: AllOthers_XIX Row Name: Others

Column Name: Title XIX %

Year: 2009 Field Note:

The estimates of payment are very rough.

In Unduplicated Count by Race, "White" is Hispanic and Caucasian combined.

Data discrepancies:

Source of delivery data: NMVRHS 2006 resident births from the Natality Summary. NMVRHS does not record subcategories for Hispanic or Latino. NMVRHS does not distinguish between Asian and Native Hawaiian/Pacific Islander.

http://www.health.state.nm.us/pdf/2006%20Vital%20Statistics%20Natality%20Summary.pdf

Source of number of infants in state: UNM BBER 2006 population estimates based on 2000 US Census data.

Source for title XIX eligibilty data: Medicaid MCH Statistical Report for FFY 2007 report request number: AH280617

All deliveries are served by Title V through newborn screening.

At this time, it is not possible to get an exact count of how many infants in the state are served by Title V. Title V provides either infrastructure through salary support or funding for direct services for the following programs through which it is assumed that close to 100% of New Mexico infants are reached: newborn screening, immunization, high-risk prenatal care fund, families first, the family, infant, toddler program and the maternal and child health epidemiology program.

Efforts are underway to improve the collection, de-duplication and linkage of data to generate an accurate count of number of infants served by Title V.

FORM 10 TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT STATE PROFILE FOR FY 2009 [SEC. 506(A)(1)]

STATE: NM

1. State MCH Administration:

Title V is located in the Family Health Bureau in the Public Health Division in the NM Department of Health. The Title V Director is also the Bureau Chief of the Family Health Bureau. The Family Health Bureau oversees: Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), Family Planning, Children with Special Health Care Needs, Perinatal Case Management/Home Visiting, Maternal Child Health, Maternal Child Health Epidemiology and Part C Care Coordination. School Health, Dental Health, Childhood Injury Prevention and Immunizations are located in other bureaus within the Public Health Division. Close coordination exists with these programs. The SECCS component is housed withing the Maternal Child Health Section of the Bureau. The Family Health Bureau consists of consists of sic sections/programs, and administrative staff who oversee the implementation of preventive services to reproductive aged women, mothers, infants, children, including children and youth with special health care need, and their families. The programs assess the needs of this population, and generate data to influence policy decision making. The services provider range from: 1) Direct safety-net health care services to individuals; 2) Family support services such as transportation, parent to parent support, case management, care coordination, WIC Commodity Supplemental Foods and Farmer's Market, outreach, translation, and health education; 3) Population-based services, such as newborn screening, surveillance, SIDS education and counseling, injury and violence prevention activities, and a marketing campaign to increase positive birth outcomes; and 4) Capacity or infrastructure building services, such as needs assessment, evaluation, planning, policy development, quality assurance, monitoring, training, information systems, and helping in developing systems of care. Several programs fund positions in the District and Local Health Offices to implement these services. The Bureau houses a Medical Director, Bureau Chief, and support staff who work collaboratively to use resources strategically to meet identified needs.

Block Grant Funds		
2. Federal Allocation (Line 1, Form 2)	\$ 4,439,493	
3. Unobligated balance (Line 2, Form 2)	\$ 0	
4. State Funds (Line 3, Form 2)	\$ 6,951,988	
5. Local MCH Funds (Line 4, Form 2)	\$ 0	
6. Other Funds (Line 5, Form 2)	\$ 0	
7. Program Income (Line 6, Form 2)	\$ 0	
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 11,391,481	
9. Most significant providers receiving MCH funds:		Community Medical Providers UNM Hospital
10. Individuals served by the Title V Program (Col. A, Form 7)		
a. Pregnant Women	 23,389	
b. Infants < 1 year old	29,738	
c. Children 1 to 22 years old	85,438	
d. CSHCN	5,341	
e. Others	 40,232	

- 11. Statewide Initiatives and Partnerships:
- a. Direct Medical Care and Enabling Services:

126 Multi-disciplinary pediatric specialty clinics CYSHCN Medical Care CYSHCN Enabling Services: Care Coordination by 60 social workers for children with special Provision of family centered, community-based, coordinated care including care coordination services, for CYSHCN and facilitate the development of community based systems of services for such children and their families. The NM Title V CYSHCN program is fortunate in that there the provider base serves New Mexico's small population in a geographically large state. Providers and agencies are represented by key players throughout the state, many of whom share the MCH approach to care for CYSHCN. The Title V Program works with Parents Reaching Out, EPICS and Family Voices to assure critical family involvement in decision making and training of providers and families, collaboration regarding transition of CYSHCN, cultural competence issues and ongoing efforts in the state to create a medical home climate. The Title V Program provides 128 multidisciplinary specialty clinics statewide assuring community based specialty care and oversight. The National Center for Cultural Competence assisted districts in planning for district appropriate cultural competence activities. The districts continue this work. With limited funding and increasing costs, the Title V program is now billing for care coordination (case management) for Medicaid clients receiving clinic services. The Title V program will negotiate with the MCO's to increase the breadth of funding to include more than a 2 hour billing per child.

b. Population-Based Services:

Newborn Hearing and Genetic Screening Programs screen over 26, 600 children annually. Experts from families, professions, agencies and UNM participate in the Newborn Hearing Advisory Committee and the Newborn Genetic Advisory Committees thus assuring a statewide effort to provide family-centered, culturally competent, community hearing Advisory Committee and the Newborn Generic Advisory Committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family-centered, culturally competent, committees thus assuring a statewide effort to provide family competent and competent effort to provide family competent effects that a statewide effort to provide family competent effort effects effort e Family Infant Toddler Program.

c. Infrastructure Building Services:

(max 2500 characters)

Surveillance to state on all children with special health care needs. Advocate for support for the infrastructure. Work continues with these partners on the Family Infant Toddler Interagency Coordinating Council, the MCH Collaborative and the Health Transition to meet the MCH model and to increase the participation of key players in addressing MCH initiatives. University operated perinatal outreach clinics, located in Albuquerque, Las Cruces, Alamogordo, Farmington, Taos, and Roswell. These clinics are staffed by

University Maternal-Fetal Medicine sub-specialists (perinatologists). They provide ongoing local patient care and physician consultation. The maternal transport and obstetric referral system provides access to a Maternal-Fetal Medicine sub-specialist 24/7 for telephone consultations. They provide transport of patients requiring intensive management at the University. The University also provides sub-specialist physicians, diabetes educators and clinical nurse educators who travel the state to provide training programs that help to maintain a uniform and ever improving standard of obstetrical care for New Mexicans. High-risk obstetrical programs and case presentations are presented at community hospitals, in which all health care professionals interested in maternal child health may attend.

2. Section Number: Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2006 Field Note:

Please see note for 2005.

3. Section Number: Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2005 Field Note:

This is a rough estimate; no surveillance was done in this year. The dental program reported the same level of effort, hence the same estimated level of coverage. This coverage is among children enrolled in schools with a high proportion of children on the free or subsidized meal program

The National Survey of Children's Health found that 78.8% of 6-9 year olds had insurance that pays for routine dental care. 79.0% of 6-9 year olds received all the routine preventive dental care they needed in the past 12 mos. This would mean that roughly 67,150 children age 6-9 goat a sealant. 66% had dental insurance and received all the routine preventive dental care they needed in past 12 mos. 12% did not have dental insurance and received all the routine preventive dental care they needed in past 12 mos. 1% didn't know if their child had dental insurance & received all the routine preventive dental care they needed.

1. Section Number: Performance Measure #11

Field Name: PM11 Row Name: Column Name: Year: 2007 Field Note:

41.8% is the percent of mothers that breastfed their infants any breast milk to six months or beyond. This is the result from the 2007 National Immunization Survey of children born in 2005. The number is provisional and the final number will be available in August, 2009.

The provisional percent of mothers that exclusively breastfed their infants, according to this same survey, was 37.2% at three months, and 15.0% at six months. Healthy People 2010 goals for exclusive breastfeeding are 40% at three months and 17% at six months.

Source: http://www.cdc.gov/breastfeeding/data/NIS_data/data_2004.htm

2. Section Number: Performance Measure #11

Field Name: PM11 Row Name: Column Name: Year: 2006 Field Note:

- 1. Annual indicator is from 2005 National Immunization Survey (NIS) breastfeeding rate for New Mexico.
- 2. The annual performance objective of 70 is from the previous version of the NPM that measured breastfeeding initiation. The objective has been changed to 50; that is the Healthy People 2010 goal for breastfeeding duration at six months.
- 3. Breastfeeding duration rates at six months in New Mexico for previous years were 2003: 39.0 and 2004: 42.2. According to the NIS.

New note for 2006: 44.3% is the percent of mothers that breastfed their infants any breast milk to six months or beyond. This is the result from the 2006 National Immunization Survey of children born in 2004.

Exclusive breastfeeding rates for this same birth cohort were 37.5% at three months and and 17.9% at six months.

FORM 14 LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: NM FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase ,list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

- 1. Improve access to and use of health & health related services including health insurance and other coverage such as Medicaid, S-CHIP for all MCH population groups
- 2. Improve the transition from childhood ages to young adulthood for children & youth with special health care needs to assure uninterrupted access to health care and related transition services
- 3. Improve indicators of health in the preconceptional and perinatal periods, including but not limited to smoking, alcohol, folic acid use, family violence, intention of pregnancy, access to and use of health care
- 4. Reduce indicators of violence affecting the MCH population with focus on reducing the number of children withnessing violence, the rate of substantiated child abuse and on reducing the percent of women who report physical abuse before & during pregnancy
- 5. Reduce unintended live births to teens, and the related prevalence of chlamydia among teens
- 6. Promote healthy weight and physical fitness among parents and their children; reduce overweight and obesity in the MCH population with focus on infants, early childhood and adolescents to reduce psychological and chronic disease problems
- 7. Reduce rates of fatal & non-fatal unintentional injury among children and teens, with emphasis on interventions regarding injuries in motor vehicular crashes and home-safety practices
- 8. Promote positive youth development experiences with emphasis on building personal & social assets at the family, school and community levels, and with a view to reduce the proportion of youth who engage risk behaviors that often have serious life-long consequences.
- 9. Strengthen the role of males in MCH through promotion of effective initiatives in healthy fatherhood and in reproductive health through male involvement strategies
- 10. Monitor the health of immigrants in the MCH population

FORM 16 STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET STATE: NM

SP	#	1

PERFORMANCE MEASURE:

The number of New Mexico counties and tribal entities implementing positive youth development strategies defined by 6

kev criteria

STATUS:

Active

GOAL

To promote positive youth development, throughout New Mexico

DEFINITION

Numerator

Numerator: Number County and Tribal Community Health Improvement Councils (CHICs) that meet five key criteria for implementing positive youth development. 1-CHIC has identified positive youth development as a priority in its annual plan; 2-CHIC membership includes at least two youth each year; 3-CHIC has at least one staff or contractor that has completed recommended training in positive youth development; 4-CHIC has a plan for at least one science-based intervention in the annual plan; 5- CHIC plan for youth involved youth and approved by youth; 6-CHIC coordinates efforts with School Health Advisory Committee (SHAC).

Denominator:

Denominator Total number of County CHICs and Tribal CHICs in the state.

Units: 6 Text: Scale

HEALTHY PEOPLE 2010 OBJECTIVE

The National Initiative to Improve Adolescent Health by the Year 2010 (NIIAH 2010) has identified 21 Ddefines adolescent health broadly, complementing the traditional focus on categorical health problems and antecedents by concepts of healthy adolescent development and health-promoting environments to provide a proactive foundation for promoting the health and safety of adolescents and young adults. The NIIAHs goal is to foster cooperation amongpartners, including states: its framework seeks new approaches, work with variety partners, sction-oriented perspective on youth development.

DATA SOURCES AND DATA ISSUES

This is not a population-based indicator but rather an indicator of the state program's performance based on 6 criteria. Population-based proxy measures for positive youth development are in the NM Youth Risk Resiliency Survey and for youth age 18-24 & adults in the NM Behavioral Risk Factor Surveillance System. This data is available by county, and will be collected every two years based on reports of the 6 criteria; first data available for 2005 report. The measure should show some impact if the assumptions about criteria are related to effectiveness of the program effort.

SIGNIFICANCE

The National Initiative is based on a comprehensive approach which recognizes that seemingly isolated adolescent problems are influenced by common antecedent factors – those that protect and those that can jeopardize health and safety. Youth opportunities and supports are increasingly important in a world of rapidly changing labor markets, rationales for civic engagement, and a growing need to communicate and cooperate across age, ethnic, religious, cultural, and gender boundaries. Youth who spend time in communities that are rich in developmental opportunities for them experience less risk and show evidence of higher rates of positive development. Diverse program opportunities are more likely to support broad adolescent development and attract the interest of and meet the needs of a greater number of youth. Cultural groups vary in what characteristics they most value for their youth and adults. Core human needs that researchers agree are universal include the need to feel competent, to be socially connected, to feel valued and respected, to actually be making a difference in one's social group, to feel that one has some control over one's own behaviors and experiences, and to have one's physical and emotional needs met. Social assets include: caring and compassion; character; competence in academic, social, and vocational arenas; confidence; connections.

PERFORMANCE MEASURE: Percent of first newborns/moms receiving support services/parenting through community home visiting/support programs

STATUS:

Active

GOAL The development of a state-wide system of family support which promotes optimal infant & child development and well

being.

DEFINITIONThe proportion of new mothers who report home visiting or other support services before delivery and after delivery is

reported in NM PRAMS.

Numerator:

Numerator: Number of first newborns/moms receiving HV or support services

Denominator:

Denominator: Total number of first births annually (by county) & for state

Units: 100 Text: percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

PRAMS and Families First data for #1; would have to explore if there are existing data bases or develop for #2.

In today's world there are increasing challenges of parenting and providing stable family life as demonstrated by the following: changes in family structure--increase in teen & single parents and those not prepared to parent their children; increased divorced rate, children spending less time with their parents and more children living in foster homes; increased

exposure to violence through media; increasing number of children living in poverty

PERFORMANCE MEASURE: Reduce unintended pregnancy in New Mexico to less than 30% of births

STATUS: Active

GOAL To improve maternal and infant health by reducing unintended pregnancy in New Mexico to less than 30% of live births.

DEFINITIONUnintended pregnancies are those that a mother reported as not wanted or wanted later; Intended pregnancies are those a

mother reported as wanted then or sooner.

Numerator

Number of mistimed and unwanted births from NM PRAMS

Denominator:

Number of NM Resident Births
Units: 100 Text: percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES NM PRAMS: 1997 is our first year of data; data will be ready for analysis in November 1998. Vital records for 1997 closed in

July 1998; data are weighted by CDC PRAMS, accounting for factors in the sample frame, response rates per stratum, and response rate per question. Henceforth, data for each year will be produced the winter of the following year, 1998 data in

November 1999 and so on.

SIGNIFICANCE Unintended pregnancy is associated with demographic characteristics of teen ages, single women/men, lower education

and income levels in women and men; maternal health problems of poor access to family planning services, late prenatal care, smoking, family violence and other family stressors; infant outcomes of low birth weight, late or no infant health care

including imunizations.

PERFORMANCE MEASURE: Reduce the number of children witnessing violence (exposed to domestic or sexual violence) as expressed by percent of

children present at a domestic violence scene.

STATUS: A

GOAL Reduce the number of children witnessing violence (exposed to domestic violence or sexual violence).

DEFINITIONThe percent of children who were present at a domestic violence scene as reported by law enforcement.

Numerator

The number of children present at a domestic violence scene as reported by law enforcement.

Denominator:

The number of domestic violence police reports

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

UCR data has its own limitations, mainly limited reporting by local law enforcement jurisdictions, and limited disclosure by

the victims themselves. We hope to get a better measure developed that includes DV shelter and rape crisis center data. Because of a large degree of under reporting, these sources represent only a portion of the violence experienced by

children. There is no direct measure of children witnessing domestic violence.

SIGNIFICANCE

Many children and young adults are exposed to domestic violence in the home or experience some form of sexual violence

from people they know. There is increasing documentation about the adverse effects, including increased substance abuse, teen pregnancy, truancy, suicidal behaviors, eating disorders and aggressive acting out behaviors. There is a profound lack of mental health infrastructure to deal with these exposures, high prevalence of domestic violence in our society and significant lack of protective skills in avoiding acquaintance rape. We are using the rape rate as an index at the present time because it is accurate, can be tracked, and there is a clear correlation between children who witness violence and the

propensity to engage in violent acts including rape as they get older.

PERFORMANCE MEASURE: Increase the proportion of women who report having all six criteria of the NM Healthy Birth Index

STATUS: A

GOAL To improve the health and well being of new mothers and infants by promoting healthy behaviors among expectant parents

in New Mexico.

DEFINITIONThe percent of new mothers for whom 1) the pregnancy was intended; 2) no binge or heavy drinking; 3) no smoking: 4) no

physical abuse by husband or partner during pregnancy; 5) awareness & use of folic acid; and 6) entered prenatal care in

first trimester.

Numerator:

The number of new mothers for whom 1) the pregnancy was intended; 2) no binge or heavy drinking; 3) no smoking: 4) no physical abuse by husband or partner during pregnancy; 5) awareness & use of folic acid; and 6) entered prenatal care in

first trimester. BAsed on NM PRAMS, representative sample

Denominator:

The number of live births. Derived from sample statistics, NM PRAMS

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE HP 9-1: Increase the number of intended pregnancies to 70%

HP 16-17: Increase abstinence by pregnant women from alcohol to 94%, tobacco to 99%; HP27-6: Increase smoking cessation from 14-30%. Related Objective: 15-34: Reduce the rate of physical assault by current or former intimate partners. HP 16-16 Increase pregnancies begun with optimum folic acid levels from 21% to 80%. HP16-6: Increase first

trimester care from 83-90%

DATA SOURCES AND DATA ISSUES

This data is collected by the Pregnancy Risk Assessment Monitoring System, it is a core question for all PRAMS states.

There may be under-reporting due to the nature of the question

SIGNIFICANCE Elements of the healthy birth index have potential for a highly positive impact on maternal and infant health, well-being and

utcomes.

PERFORMANCE MEASURE: Reduce the proportion of women who report being physically abused by husband or partner during pregnancy.

STATUS: Activ

GOAL To improve the health and well being of new mothers and to reduce family violence and the risk of children being exposed

to family violence.

DEFINITION Rate: Weighted percent of women who report physical abuse by partner in pregnancy from PRAMS surveillanc

Numerator:

Numerator: Number women abused is an estimate derived from PRAMS surveillanc

Denominator:

Denominator Population of live births, estimate derived from PRAMS surveillance

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE See related HP 2010 objectives:

No specific Healthy People 2010 Objective for this age group and gender. Related Objective: 15-34: Reduce the rate of physical assault by current or former intimate partners. Target 3.3 physical assaults per 1,000 persons age 12 and older. Bseleine was 4.4 in 1998. Disparities reported: rate for females was 7.2 per 1,000 females; males 1.3 per 1,000 males.

DATA SOURCES AND DATA ISSUES

This data is collected by the Pregnancy Risk Assessment Monitoring System, it is a core question for all PRAMS states.

There may be under-reporting due to the nature of the question.

SIGNIFICANCE Prenatal physical abuse of mothers can result in fetal death, early labor, preterm, low birthweight or maternal medical

problems. It is associated with severe emotional distress and threatens healthy family life. Children who are exposed to domestic violence are at increased risk for behavioral difficulties, emotional problems, poor academic performance,

delinquency and impaired health during adulthood

PERFORMANCE MEASURE: Increase the proportion of women who deliver a live infant who are reported to have been screened for syphilis during

pregnancy. Active

STATUS:

To assure that all pregnant women are screened for syphilis during their pregnancy.

DEFINITION

GOAL

Numerator:

Numerator: The number of women delivering a live infant in New Mexico that are reported to have been screened for

syphilis.

Denominator:

Denominator: the number of women who deliver a live infant in New Mexico.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Related to Objectives 16.6: Increase the proportion of pregnant women who receive early and adequate prenatal care.

Related to Objectives 16.14: Reduce the occurrence of developmental disabilities.

DATA SOURCES AND DATA ISSUES

New Mexico Birth File from the Bureau of Vital Records and Health Statistics.

SIGNIFICANCE

Screening all pregnant women for syphilis is recommended by the US Preventive Services Task Force in order to decrease the number of infants with clinical manifestation of congenital syphilis. Congenital syphilis infection results in fetal or perinatal death in 40% of affected pregnancies, as well as disease complications in surviving newborns, including central

nervous system abnormalities; deafness; multiple skin, bone, and joint deformities; and hematological disorders.

Natality Data:

- 1. The categories of "Asian" and "Native Hawaiian or Other Pacific Islander" are combined in this report.
- 2. Source: Vital Records and Health Statistics 2006 Natality Summary http://www.health.state.nm.us/pdf/2006%20Vital%20Statistics%20Natality%20Summary.pdf

Data for Various Situations:

1. The categories of "Asian" and "Native Hawaiian or Other Pacific Islander" combined for this report.

FIELD LEVEL NOTES

 Section Number: Indicator 09A Field Name: HSIRace_Children Row Name: All children 0 through 19

Column Name: Year: 2009 Field Note:

Source: UNM Bureau of Business and Economic Research 2006 intercensal population estimate.

2. Section Number: Indicator 09A

Field Name: HSIRace_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name: Year: 2009 Field Note:

Source: The Annie E. Casey Foundation Kids Count Data Center

Data on children in single parent families by race other than 'white' is not currently available. "Data estimate has been suppressed. Estimates from the American Community Survey (ACS) are suppressed when the total confidence interval (upper bound minus lower bound) of the percent estimate, is 10 percentage points or greater."

http://www.kidscount.org/datacenter/

3. Section Number: Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families

Column Name: Year: 2009 Field Note: Total Percent:

Numerator: number of children ages 0-18 receiving TANF in December, 2006 (source: New Mexico Huiman Services Division Monthly Statistical Report January, 2007)

Denominator: number of children ages 0-18 in 2006 in New Mexico (source: UNM Bureau of Business and Economic Research)

Percent by Race:

Numerator: Based on the percent by race of one-parent TANF recipients. EX: 70.7% of "One-Parent" TANF recipients are Hispanic. Total number of child TANF recipients in December 2006 is 23,973, therefore 16948 TANF child recipients are Hispanic, or 3.3% of the total child population in NM in 2006. Most child TANF recipients are in One-Parent households.

Denominator: number of children ages 0-18 in 2006 in New Mexico (source: UNM Bureau of Business and Economic Research)

"White" is Hispanic and White combined.

Asian and Native Hawaiian/Pacific Islander are combined.

Section Number: Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid

Column Name: Year: 2009 Field Note:

Source: Medicaid MCH statistical report number AH28067 FFY 2007.

data from 10/1/2006 to 9/30/2007

Hispanic and Caucasian Medicaid enrollees are combined.

Section Number: Indicator 09A
 Field Name: HSIRace_SCHIPNo
 Row Name: Number enrolled in SCHIP

Column Name: Year: 2009 Field Note:

Source: Medicaid MCH statistical report number AH28067 FFY 2007.

data from 10/1/2006 to 9/30/2007

Hispanic and Caucasian SCHIP enrollees are combined.

6. Section Number: Indicator 09A Field Name: HSIRace_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name: Year: 2009 Field Note:

Source: New Mexico Huiman Services Division Monthly Statistical Report January, 2007

Number by Race:

Total number of child food stamps recipients multiplied by percent of total Food Stamp recipients by race/ethnicity.

"White" is Hispanic and White combined

Asian and Native Hawaiian/Pacific Islander are combined.

Section Number: Indicator 09A
 Field Name: HSIRace_WICNo
 Row Name: Number enrolled in WIC

Column Name: Year: 2009 Field Note:

Source: New Mexico WIC program.

Section Number: Indicator 09A

Field Name: HSIRace_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name: Year: 2009 Field Note:

Source: JJS FACTS extracts, 2006. The data are presented as referrals. One client may have more than one referral inmore than one county during the fiscal year.

9. Section Number: Indicator 09A

Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name: Year: 2009 Field Note:

Source: New Mexico Public Education Department dropout report for 2006-2007

http://sde.state.nm.us/IT/fs/dropout/06-07DropoutReport.pdf

White = Caucasian + Hispanic

Section Number: Indicator 09B
 Field Name: HSIEthnicity_Children
 Row Name: All children 0 through 19

Column Name: Year: 2009 Field Note:

Source: UNM Bureau of Business and Economic Research 2006 intercensal population estimate.

11. Section Number: Indicator 09B

Field Name: HSIEthnicity_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name: Year: 2009 Field Note:

Source: The Annie E. Casey Foundation Kids Count Data Center

http://www.kidscount.org/datacenter/

12. Section Number: Indicator 09B

Field Name: HSIEthnicity_TANFPercent Row Name: Percent in TANF (Grant) families

Column Name: Year: 2009 Field Note: Total Percent:

Numerator: number of children ages 0-18 receiving TANF in December, 2006 (source: New Mexico Huiman Services Division Monthly Statistical Report January, 2007)

Denominator: number of children ages 0-18 in 2006 in New Mexico (source: UNM Bureau of Business and Economic Research)
